VSP continually assesses the doctor network to ensure adequate access for members. VSP's access standard is one doctor in a 10-mile radius urban/suburban and one doctor in a 25-mile radius for rural. VSP utilizes reports to analyze and determine the percentage of members that will have access to a doctor within a specified distance. VSP runs specific reports to determine if standards are being met and whether to apply appropriate interventions when gaps are identified.

Note: By using this VSP doctor list, you agree that the information it contains is protected and proprietary. Publication or sharing of the information for any purpose other than implementing the VSP vision care plan is prohibited.

Your employer or health plan has approved additional providers, but they have not been credentialed by VSP and are not VSP doctors. VSP cannot guarantee satisfaction with services you may obtain from these providers.
