

Extended Break Information

Mrs. Cahall

Over the next three weeks, March 17 – April 6, you will be expected to complete 10 assignments. These assignments are **review** of material that has already been covered this year.

Each of the 10 assignments will be graded for 10 points each, making your Extended Break work worth a total of 100 points.

The assignments are **due** by April 6th at 8:00 AM.

Any assignment that is not completed during the Extended Break will be entered as a 0. Students may be permitted to make up missing assignments during Flex period once we have returned, for partial credit.

Any student with internet access will complete these assignments virtually on Delta Math. You can access these assignments by going to deltamath.com and signing in with your school email.

Any student without internet access will be sent home with 10 assignments (hard copy).

You can communicate with me via email at samantha.cahall@elsd.us, through Google Classroom, or by phone through Remind. It is possible that we can connect through Google Hangout if you need additional assistance.

I will post resources for the lessons on Google Classroom. Make sure to check your Remind Messages as well as your Google Classroom account regularly.

I will miss each of you during this extended break. I hope that you will make good, safe, and healthy choices. I am looking forward to being back in class together!
